

# SARK

As of March 31, 2022

## ABOUT THE FUND

Do you think disruptive innovation is overbought? Do you believe that ultra-high growth stock valuations have reached uncomfortably lofty levels? Does the bull thesis for transformational industries such as next-gen internet, electric vehicles, genomics, and fintech seem stretched? If so, consider the Tuttle Capital Short Innovation ETF.

SARK is an attractive opportunity that allows investors of all types to obtain short exposure to a concentrated portfolio of secular growth companies.

SARK is an actively managed exchange traded fund that attempts to achieve the inverse (-1x) of the return of the ARK Innovation ETF (NYSE Arca: ARKK) for a single day, not for any other period.
